#### Brief Description of Activities :

##### Research:

One of the most important tasks of CAMPE is to explore new areas of research while placing special emphasis on the attainment of literacy skills, functions and performance of literacy centres, and motivation of literacy personals to come forward with innovative ideas in the field of education. It is also responsible for undertaking policy research in collaboration with other Organisations at the national and international level. One of its most lauded achievements is the Education Watch Reports which have been internationally accredited and also used as a ready reference by government, donors, researchers and advocacy groups.

##### Training:

In order to strengthen the capacity of grass root NGOs CAMPE focuses on facilitation of training programs. It helps to supplement the curriculum on basic and continuing education in addition to publishing relevant materials on the basis of needs identified by stakeholders. It also takes initiatives to popularize new concepts on education through organizing action research, meetings, seminars and workshops. CAMPE has a special focus and attaches special emphasis to popularize the concept of Early Childhood Care and Development (ECCD) among the stakeholders.
